# AIR GRAVITY

## AUTO INFRARED BODY SCANNER

Shiatsu points, which differ according to the body type of each users, are automatically detected by infrared sensors. Even if used by multiple users, the massages are automatically made customized during massages for each users, providing them professional, quality and relaxing massage sessions.

## AUTO PROGRAMS

Massage professionals use technique, order and strength to give effective massages to the body. These techniques, orders and strengths can and has been incorporated into the INVERSION STRETCH AUTO PROGRAMS.

There are 9 auto programs that run from 5 - 30 minutes

- Health-Care
- Relax
- Smart
- Circulation
- Demo
- Neck And Shoulder
- Back And Lumber
- Full Air
- Heat

## MANUAL SETTINGS

Manually choose and select from any of the functions, strength, speed and width of the massage rollers and intensity of air bags to suit your preferences with a push of a button.

Choose from Shiatsu, Kneading, Tapping, rolling or a combination of two types of massages to suit your massage sessions accordingly. This chair also includes two new massages - swedish and clapping.

Six Massage  
Technique  
combinations

# AIR GRAVITY

## UPPER BODY MASSAGER

The Air Gravity has a head rest capable of neck massages by using air bags. The head rest has a very comfortable feel against your head or neck and is also adjustable.

It also includes air bag massagers to efficiently massage your shoulders.

## ARMREST MASSAGER

Our new fancy looking chair also has a soft, uniquely designed armrest. Not only is it comfortable, it uses powerful air bags to give your arms massages.

## LOWER BODY MASSAGER

Lower body massaging includes seat vibration, waist air bag massages, thighs air bag massages.

The seat vibration promotes blood flow while the waist helps loosen your lower body up and thigh massager to effectively massage and relax you.

## CALF AND SOLE MASSAGER

Of course the new Air Gravity includes massages for your tired and sore legs. The calves are also massaged by powerful air bags and your feet are massaged by rubber spikes to provide your feet the most effective method of rejuvenation.
